

Battery info

Outer gauge: long-term computation
Inner gauge: short-term (live) computation

Color codes

Good / no problem

Good / no problem
(secondary color)

Needs attention

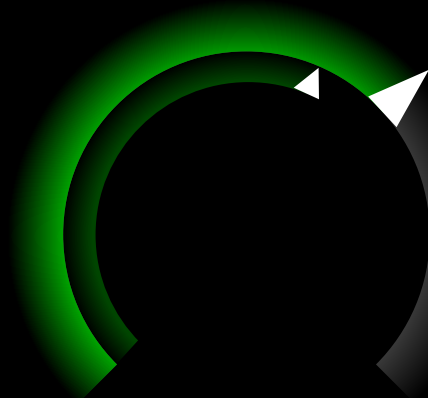

Danger / needs
immediate action

Short-term (live) computation logic

Encourages driver to drive more ecologically
("If You lift your acceleration pedal THIS much,
you can drive THIS far!")

standstill / smooth driving
(same position with long-term comp.)

acceleration
(shows reduced battery capacity)

lighter acceleration / braking
(shows increased battery range)
